Dear Parents and Guardians

With the move to Level 1 across NZ we are in the process of returning more of our systems back to “normal.” Thank you again for your cooperation and support over the past seven weeks. I was talking with some principal colleagues last week on how strange it was walking out of the school on the last afternoon before the Level 4 lockdown began. As a community much has happened and like most of you I am relieved to be heading towards slightly more normal times.

LEVEL 1 CHANGES

Access to the office is now available, there is no requirement to physically distance while waiting, however we would still encourage you to do so as it allows our staff to deal with parents more quickly without experiencing the crowding we sometimes had prior to lockdown. We do ask that you continue to sanitise your hands when entering the school.

The one way system throughout the school will no longer be operational. You are welcome to come into the school as you used to. Please note that we will still have a couple of doors locked in the junior area, however this is due to construction rather than Pandemic.

You will no longer need to sign in to come into your child’s classroom.

School Patrols will be fully operational as of next week.

School finishing times will revert to 3pm for all classes as of Monday 15th June. At this stage we intend to continue our staggered morning tea and lunch times for the remainder of the term.

HEALTH OF ALL

It is important that we continue to practice safe hygiene for all students, please talk to your child about coughing into their elbow etc and washing their hands thoroughly. If you or your child are sick please do not send them to school or enter into buildings. We have also asked staff to stay home if they are ill.

GOVERNMENT QR CODE

We have replaced our school codes with the official NZ Government QR Code. We encourage you to continue to scan this as you enter our school grounds, this helps with contact tracing should the need ever arise. (Hopefully not!) You can download the official app from the Google or Apple App Stores. Scanning the new code will be far quicker.
