COVID-19 UPDATE

With so much information and misinformation swirling around about COVID-19, I wanted to share with you this advice we have just received from the MOE on what will happen if we were to have a case in our school community.

- As soon as a case is confirmed in our immediate school community (eg. a student, staff member, or member of their household), the Medical Officer of Health and Ministry of Education will inform me about this, and we will work together to get quick and clear messaging out to you
- If there was a case confirmed of someone in our school, we will likely be asked to close temporarily by the Medical Officer of Health. This will allow time for close contacts to be traced, appropriate testing to be undertaken, and a careful clean of the school to be undertaken.
- If our school does need to close temporarily, we will have a plan in place to support student's learning.

We know COVID-19 brings much uncertainty and of course we are all concerned for the wellbeing of our children.

Please be assured that with no case confirmed in our school, your children are safe here and we are continuing to try to provide a level of normality that our students need in these uncertain times.

Good hygiene is a priority at our school, and we are reinforcing this regularly with all students and staff. We know that practicing good hygiene is still the best thing we can all do to prevent illness.

We are getting the most up to date advice and guidance so that we can confidently make informed decisions about the safety and wellbeing of our entire school community.

Ngā mihi

Mike Farrelly
